

NEW ENGLAND RARE COIN GALLERIES

CATALOG

VOLUME 2

Welcome to our Second Catalog!

New England Rare Coin Galleries is relatively new to the retail coin field. For years, we were one of the leading wholesale suppliers of rare coins and our customers included the country's leading rare coin dealers. We did have a few select retail clients but for the most part, our clientele consisted of other dealers.

Approximately two years ago, N.E.R.C.G. went into the retail coin business and began to issue price lists. Our new customers, still primarily other dealers, soon learned that our conservative grading more than compensated for our seemingly high prices.

At present, N.E.R.C.G. is still one of the leading wholesalers of choice and rare U.S. coins and is also one of the nation's leading suppliers to advanced collectors. Our business volume tripled from the beginning of 1973 to the beginning of 1974. Since then, it has more than doubled again!

N.E.R.C.G. is winning over an ever increasing percentage of the rare coin market and we feel that it is extremely important that you, our customers, understand some of the many factors which contributed to our phenomenal growth. Please consider the following and we're certain that you will consider making N.E.R.C.G. your headquarters for rare and choice coins.

1) *Quality and Value:* Here at New England Rare Coin Galleries, the emphasis is always on quality since we believe that quality more than pays for itself in the long run. We grade our coins as conservatively as possible and quite often, our AU coins will be equivalent to, or better than, coins offered as BU or even Ch. BU by some other sellers. That is why our prices may seem higher at times. However, the fact that America's leading dealers, collectors and investors continue to buy from N.E.R.C.G. (and at an ever increasing rate) should convince you that we do, indeed, offer the best possible value per dollar spent.

2) *Expertise:* Our staff includes some of the finest and most knowledgeable numismatists in America. Authenticity is guaranteed, and members of our staff are often called upon by museums, government agencies and other coin dealers for advice in authentication.

Furthermore, we are in constant touch with the coin market. Members of our staff attend virtually every major coin show and many major auctions. We are members of the F.A.C.T.S. teletype circuit and have extensive direct contact with virtually all aspects of the rare coin market. We understand coin values and we understand the coin market. This allows us to offer our investment clients meaningful advice as to which coins we feel will prove to be the best possible investment. This advice is based on rarity, current demand vs. anticipated future demand, past performance, and several other aspects of market trends.

With our help, our customers have made tremendous profits in rare coins. In fact, the gains made by our investment customers have outpaced the coin market in general.

3) *Service:* We are here to meet your numismatic needs, whatever they may be and are always in a position to obtain the items you need for your collection or portfolio. At N.E.R.C.G., want lists are serviced, not ignored. We can offer advice on virtually every aspect of numismatics and the rare coin market.

We process virtually all orders within 24 hours and thus feel that our mail order service is unsurpassed in the industry.

4) *Professional integrity:* At New England Rare Coin Galleries, we pride ourselves on our high standards of ethics, believing that by offering fair, consistent value, properly graded coins, sound unbiased advice, and (of course) authentic, ac-

curately attributed and described coins, we are not only serving our customers, but ourselves as well.

We could advertise most of our Choice AU coins as BU and sell them at higher prices and we could just as easily tout the investment potential of a coin which we do not really feel is a good value. However, since we are looking for long term, repeat business, not one-time sales, we choose the more difficult route of offering correctly graded coins and expressing our true opinions to our clients. This policy has produced tremendous dividends for our clients and ourselves.

5] *Selection:* In this type of a market, our primary concern is not with selling coins as much as it is with buying them. Our sources, in this regard, are nearly unsurpassable. Many of America's leading dealers and collectors regularly call us with rare and desirable properties. Our high-volume, low margin of profit business allows us to pay very competitive (often record breaking) prices for rare coins.

Members of our staff attending leading coin conventions examine several million dollars worth of coins a week to bring our customers the very best values from other dealers' inventories.

As a point of interest, we do not hold back portions of our inventory as many dealers do. All of our new purchases are available for sale as soon as we can catalog and price them. We don't keep the best investments for ourselves since we feel that our customers deserve to profit from this market.

Our own million dollar inventory of rare coins is now one of the largest and most comprehensive in the nation. Our business is to meet our clients' needs, and we think we do an excellent job of it!

Our first catalog was a virtual sell-out and we expect this one to be the same. Therefore, we strongly recommend that you order early and include as many alternate choices as possible.

Please keep in mind that we are constantly buying coins and even if we don't have the specific coins you want from this catalog, we are almost certain to have other coins that you may desire. We will be happy to discuss your needs at any time. You may telephone us on our toll-free WATS line (800-225-3858) and we will advise you what coins are available.

We know that we can offer you the very best in quality, value, professionalism and service and remember, we are here to serve you!

Best regards,

Jim Halperin, President
N.E.R.C.G.

Choice U.S. Coins from New England's Largest & Most Active Rare Coin Dealership!

OUR POLICY:

GRADING

We grade all of our coins accurately and conservatively and try to describe them in such a way that they will be exactly as you expect them to be when you receive them. We don't believe in pushing grades or ignoring defects. All coins are described as fully as possible with scratches, weak strikes, nicks, or signs of cleaning mentioned.

PRICES

We try to price our coins as reasonably as we possibly can. In light of the quality we offer, we cannot sell coins at "below-wholesale" or "bargain" levels except in "special" circumstances. However, we're fully convinced that we are delivering the best possible value per dollar spent. Despite our seemingly "high" prices, America's leading collectors, investors and dealers continue to order from N.E.R.C.G. We must be doing something right!!

SERVICE

Nearly all orders go out the same day they are received. All coins are shipped fully insured or registered, and all non-local orders are sent via AIR MAIL. We know you don't like to wait any longer than necessary to receive your coins and that is why filling your orders quickly and efficiently is so important to us. Try our service. You will be amazed!

SATISFACTION GUARANTEED

To sum it up — we are not happy until you are! All coins are sold with a ten (10) day return privilege. (Coins may be returned for any reason or no reason at all) All coins carry a life-time guarantee of authenticity. When you order coins from N.E.R.C.G., we guarantee that you will receive an authentic specimen of the issue you order — a point not to be taken lightly when you consider the number of counterfeit and altered examples of many issues that are currently on the market.

CUSTOMER SERVICES:

New England Rare Coin Galleries also offers the following customer services:

WANT LISTS

If you are looking for a particular coin or several coins in a particular grade, send us a list of these. We will do our best to locate them for you. There is never any obligation on your part!

INVESTMENT COUNSELLING

Our expert staff of numismatists will be happy to advise you as to the coins which we feel will offer you the best possible return per dollar invested. We are in constant touch with the coin market and are in a better position than most to recognize truly scarce and underpriced numismatic items. Investment packages can be tailor-made to your individual needs. If you would like to discuss this service, call us and ask for Christopher Tracey.

PRIVATE TREATY SALES

We have built one of the largest rare coin dealerships in the U.S. Our clientele includes many of America's leading collectors and investors. Our problem is not selling coins — it is buying them! If you have a rare coin or a group of coins you would like to sell (and realize the best possible price for it!) send us a description of the coin(s) you have for sale. If we have a client needing the particular coin or group of coins, we can arrange to sell them through private treaty. (We are also anxious to buy coins outright.)

SELECTION:

In this catalog we present the best selection of choice and rare U.S. coins that we have ever offered. There are many excellent values here, and we strongly advise an immediate phone call to reserve items in which you are interested.

We have priced and graded all coins to be top values, and choice, desirable coins that are priced to sell (and most of the coins we offer for sale fit that category) cannot be expected to last long.

Invariably, when we publish our ads and price lists, we get multiple orders, often as many as 10 or 15 orders for the same item! Nearly all items are one or two of a kind and thus we must often disappoint our customers with "sold out" letters and refund checks. This is regrettable, but the alternative of pricing our coins so that they are not as good values to avoid multiple orders for the same order does not appeal to us, nor would we expect it to appeal to our valued customers.

Therefore, all we can say is please order as soon as possible and list second choices if possible. We will not use your second choice listings unless we are sold out of your first choice.

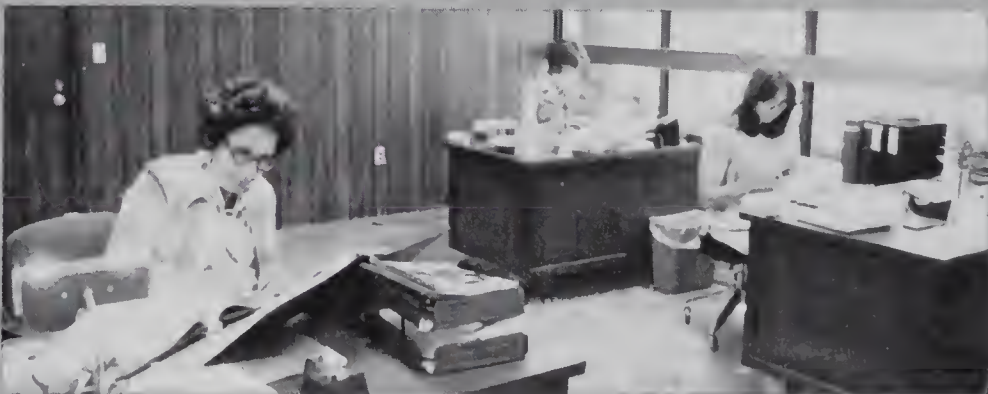

New England Rare Coin Galleries has recently relocated in a magnificent new 2,500 square foot suite of eleven offices to better serve our customers' numismatic needs.

In only five short years, we have grown from what was essentially a one man operation (Jim Halperin) to become one of the nation's leading rare coin dealerships. Our new facilities allow us to provide many customer services which were unavailable at any of our former locations. For instance, we now have a photo lab on the premises with an industrial quality Polaroid camera, and our staff photographer, John Courville, can produce a high quality natural size photograph or enlargement within minutes. This is an invaluable aid to us when compiling new catalogs and price lists. For reference purposes, we also maintain a photograph library of interesting items that we have handled. Furthermore, we will include a photograph upon request of any item from our stock priced at \$1,000 or more. Since no two coins are exactly alike, a photograph makes positive identification possible in cases where coins have been recovered from robberies.

Our new offices are directly adjacent to our bank, the Framingham Trust, so we now have immediate access to our stock at all times. Visitors to the Boston-Framingham area will have little difficulty in locating N.E.R.C.G. since we are only seconds away from Exit 12-W of the Massachusetts Turnpike (Route 90).

COLONIAL COINAGE

For your reference, the Guide Book page numbers are noted in parentheses.

A WORD TO THE WISE: The United States Colonial coinage series is considered by many (ourselves included) to be one of the great "sleepers" in American numismatics. Prices are only now beginning to rise after a decade of near dormancy.

The coming bicentennial is bound to cause even greater price rises than could otherwise be anticipated.

As with all numismatic investments, quality should be the most important factor as it is nearly always those coins which have been obtained in the best possible condition which prove the best investments in the long run.

In this issue we present an absolutely outstanding selection (particularly from a quality standpoint) of choice and rare U.S. Colonial coinage.

Auctori Plebis 1787, EF with some claims to AU, but weakly struck in the centers as this type is always seen. Beautiful chocolate-brown surfaces. (p. 48) 275.00
Castorland 1796 1/2 dollars. We offer a small group of restrikes. An original specimen of this type would easily bring a five-figure price on today's market. (p. 51)

Silver, proof, Vlack-9 125.00
Silver, dull proof, Vlack-10 65.00
Bronze, P-L Unc, Vlack-11 (the recent Ullmer sale specimen in true AU grade, realized \$90.00) 90.00
Copper, dull proof, Vlack-12 59.00
Modern bronze restrike, Matte proof 25.00
Connecticut 1785 Bust right, F-VF, (p. 27) 55.00
VF-EF, Miller 1-E 95.00
1787 Draped bust left, overdate 1787/1877 Miller 12Q, Vlack-26, Interesting and scarce, VG (p. 29) 35.00
1787 Draped Bust Left, VF-EF (p. 29) 69.00
EF-AU, beautiful, lustrous surfaces 195.00
AU, as struck, but weakly struck. Nice color and fairly attractive, Miller 33-6-KK 100.00

Glossy AU, a beautiful Connecticut cent. Unusually well struck with very pleasing surfaces 325.00
1787 Draped Bust Left, ET LIR variety, EF-AU (p. 29) 225.00
1787 Mailed Bust Left, Horned bust variety, VF, (p.29) 65.00
1788 Mailed bust right, G-VG, (p. 29) 19.00

Continental Dollar, 1776, CURRENCY, struck in Pewter, overall VF-EF; actually fully EF, but weakly struck in the center of the obverse. A "gem" specimen in that the coin is unusually round for a Continental Dollar. There are no rim nicks and the coin is not the slightest bit bent.

An excellent example of this extremely popular rarity. (p. 35) 4500.00

Franklin Press Token, 1794, Ch. Brown Uncirculated, with a generous quotient of original mint red on the obverse. An exceptional specimen of this popular coin. (p.49) 375.00

French Colonies, Sou Marque, 1755, Ch. AU, attractive original toning (p.39) 150.00
Fugio cent 1787, Pointed Rays, United States at sides. Fine (p. 56) 59.00
F-VF 69.00
States United, VF, dark (p. 57) 29.00

Glossy Brown Unc. 295.00

Georgius Triumpho 1783, EF, beautiful light brown surfaces, but a bit weakly struck (as many are.) A most pleasing example. (p. 51) 295.00

Mass. Cent, 1788, with period after Massachusetts:

VG (p. 32) 19.00

Fine 26.00

F-VF 39.00

VF 55.00

New Jersey, St. Patrick's farthing, VG, (p. 18) 75.00

F-VF 150.00

EF, very rare in high grades 395.00

New Jersey St. Patrick's Half Penny, 1658, underrated issue, VG, (p. 18) 160.00

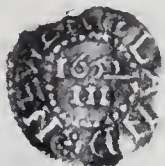

New Jersey 1787, Outlined shield, VG-Fine (p. 33) 24.00

North American Token, 1781, Glossy EF-AU, usual strike.

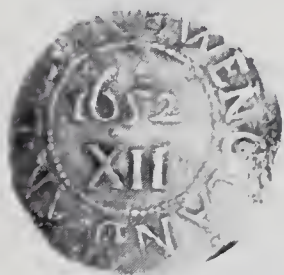

Very attractive, and scarce in top grade. (p. 40) 89.00

Nova Eborac, reverse facing left, 1787, full EF with beautiful, even surfaces. An exceptional specimen. (p. 26) . . . 495.00

Oak Tree 3 pence, 1652, EF detail, however the coin does have some of the usual planchet clipping and some weak areas which do detract from its value. Otherwise a four-figure priced coin — we offer this at an attractive (p. 15) 495.00

Oak Tree Shilling, 1652, Overall EF-AU, no clipping, but some areas of weakness in striking. (Otherwise this coin is virtually mint state!) Beautiful original color and actual traces of original mint lustre. An absolutely outstanding specimen of this scarce and romantic issue. Certainly one of the finest Oak Tree shillings to be offered for sale in recent years. (p. 16) 2950.00

**"Today I received the Choice BU gold coins which you mailed me this week. As always, I am quite pleased with the quality of the coins and with your prompt service."
C.W., NEW YORK**

Rhode Island Ship Token, 1778, Wreath below ship, struck in brass. Ch. Brown Uncirculated with some original mint color. One of the finest R. I. Ship Tokens in existence! A prize for the specialist in top quality colonial coinage (p. 50) 3750.00

Rosa-Americana halfpenny, 1723, Ch. AU, traces of mint red. Appears fully Unc at first glance. (p. 19) 350.00

Talbot, Allum & Lee, 1795 cent, Ch. Brilliant Proof. Very scarce in this grade. A 1794 T.A.L. in this condition sold to a dealer (at a recent Stack's sale) for \$2300.00. This specimen is an outstanding value at only (p. 45) . . 1750.00

Vermont cent 1786, "Vermontensium" VG; Ryder 8 (p. 23) 95.00

EF-AU, beautiful, even, brown surfaces. An extremely beautiful example. Outstanding condition for any Vermont copper. Even more amazing for this scarce type. An excellent value at 1250.00
MINT STATE "VERMONTENSIMUM"

Vermont 1786, VERMONTENSIMUM, Beautiful, glossy brown Uncirculated, some slight traces of cabinet friction. An unbelievable rarity in this grade. Unquestionably the finest "Vermontensium" to be offered for sale in over a decade. For some reason, Vermont cents are seldom seen in high grades. The opportunity to purchase any Vermont cent in

such outstanding condition is rare indeed. From a condition and rarity standpoint, we consider this coin to be the highlight of our Colonial listing. With today's emphasis on quality, we see no reason why this could not be a \$20,000 coin in the near future. A once in a life time opportunity for the connoisseur of top condition colonials. Ryder-6, (p. 23) 5950.00

Vermont 1787, Britannia reverse. The reverse on this coin is always weak so these must be graded by the obverse.

F-VF, Ryder-13, (p. 23) 110.00

About Uncirculated, a needle sharp striking on the obverse, with far less granularity than usually seen. Truly exceptional. Ryder-13 895.00

Washington, North Wales 1/2¢ 1795, beautiful EF-AU, weakly struck as always with some very minor planchet laminations on the obverse. Otherwise this coin is in virtually mint state condition. One of the finest North Wales 1/2¢'s we've seen, and noticeably superior to the Guide Book plate coin. An important opportunity. (p. 55) 695.00

Ch. AU, a gem! Beautiful iridescent brown surfaces, lustrous, and no defects of any kind. Even more softly struck than the preceding specimen. Still the finest North Wales half cent to come upon the market in years. A sensational coin! 1500.00

Washington 1783 Double Head cent, EF-AU (p. 52) . . 140.00

**"Thank you for the wonderful quality and great service."
V.B., CALIFORNIA**

Washington 1791, Small Eagle cent, EF-AU, traces of P-L surface. (p. 53) 295.00

Ch. Unc., P-L surfaces and traces of mint red. A beautiful example, although not quite as nice as the Orr specimen which realized \$2500.00! Still one of the very nicest Small Eagle cents in existence, well worth 1650.00
Washington 1793, Ship half penny, AU, an unusually sharp striking for this issue. (p. 54) 395.00

Brown Unc, weakly struck as usual with some minor surface marks. Not as nice as the Uncirculated Orr specimen which realized \$2700, but better than his AU (at \$750!) This coin, priced at a modest 695.00

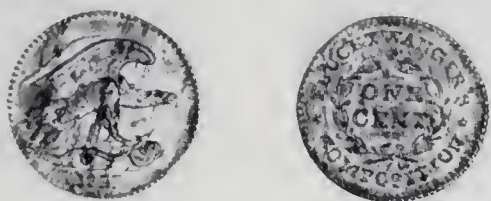

Washington 1795 halfpenny Grate token, large buttons, reeded edge. Red & Brown Unc., some mint-caused planchet scratches, otherwise a gem (p. 54) 275.00

HALF CENTS

This series of United States coinage has been traditionally underpriced, particularly in the top grades. Rarities and top condition coins of the half cent series are available for a fraction of what coins of equal condition and rarity sell for in other series.

We offer a nice selection of half cents, including a beautiful AU 1793 and the excessively rare 1811 restrike.

SUPERB AU 1793 HALF CENT

1793 Gilbert-4, Glossy brown AU-50, flawless! An unbelievable example with the choicest surfaces imaginable. No defects or impairments of any kind. We have seen sharper examples of 1793 half cents, but never have we seen a choicer, more pleasing one. Its value is further enhanced by the fact that Gilbert 4 is the scarcest variety of 1793 and is seldom seen, except in low grade. However, we have priced this piece at the common type coin price, and we feel that it is an outstanding value for the quality conscious collector, investor, or dealer 4950.00

EXCEEDINGLY RARE 1811 RESTRIKE, REV. 1802

1811 Restrike, Reverse of 1802 as listed in the Guide Book (p. 64). A total of six specimens were struck in 1859 by Joseph Mickley using U.S. mint dies. Five specimens are now known to exist. The presently offered specimen is in beautiful Brown Uncirculated grade, with traces of mint red—struck from rusted dies as all are, but otherwise a gem. Possibly the finest known specimen of this issue.

A great rarity, and like most half cents, greatly undervalued. Here is an opportunity to purchase a greatly underpriced rarity — a coin with the potential to eventually sell in the \$50,000 — \$100,000 price range. Indeed it is rarer than the ULTRA HIGH RELIEF double eagle which just sold for \$200,000!

This coin is now available from us for just 9950.00

LARGE CENTS

Highlighted by high grade 1793 Chain and Wreath cents, as well as a superb 1795 lettered edge cent.

1793 Chain, America in legend, VF-EF or better. Actually this coin is fully EF in grade, but with some microscopic surface pitting. An extremely attractive example with beautiful light brown surfaces. We are confident that many dealers would grade this piece choice EF! A beautiful high grade chain cent. We've seen inferior specimens priced almost \$1000 higher! Attractively priced at 2750.00
1793 Wreath, lettered edge S-11c, R-3, VG, much rarer than the vine & bars type 375.00

1793 Wreath, Vine & Bars edge. Attractive AU with virtually full detail. Some minor field and rim abrasions, but the surfaces and color are still attractive. With the recent sale of a mint state specimen at \$16,000.00 we feel our AU should prove a tremendous investment at 2950.00

1794 S-22, Brown Uncirculated, sharply struck and lustrous. Clean surfaces and absolutely free of defects. A beautiful 1794 cent, and a prize for the type coin collector or large cent specialist 2500.00

MINT STATE 1795 LETTERED EDGE CENT

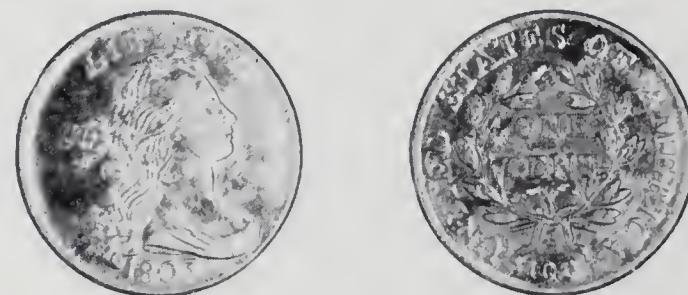

1795 Lettered edge, S-75, Gem Brown Uncirculated, superb in strike and color. Full mint cartwheel effect. A condition census coin. INDIAN CENTS

The market has been depressed on this series and the Lincoln cent series as well, for about 10 years. We are now strongly recommending the purchase of Indian and Lincoln cents for investment, particularly in Uncirculated and proof grades.

EARLY DIMES

- 1798/7 VF-EF, first year of the Heraldic type, and as such a much desired date. The specimen offered here is an unusually sharp strike and we feel that many dealers would grade it fully EF. Very attractive. 595.00
1805 AG 60.00

BUST DIMES

- 1814 Small date, much rarer than the large date variety. In fact, Scott's says "excessively rare in Unc, traditionally much underrated in all grades." Taxay priced this variety at \$135.00 in VF as compared to \$40.00 for the large date. (This was 4 years ago!) We offer two attractive examples:
EF 110.00
Lustrous, original AU 350.00
1821 S.D., lustrous AU. Dipped long ago and somewhat weakly struck as this date is nearly always seen. Bargain priced 125.00
1827 Sharp AU, cleaned long ago. Virtually full detail . 150.00
AU, prooflike 295.00
1828 Small date, only recently recognized as the first small size bust dime issue. Rare and underrated. A BU would undoubtedly realize \$1500.00 or more. EF 100.00

- Ch. AU, fully struck and semi-P-L. Very close to mint state. Priced to sell 495.00
1829 AU 195.00
1830 Ch. AU, sharper than most BU'S! 395.00

- 1831 Choice Proof, an authentic proof specimen with high

raised wire edges on both sides. Surfaces are just the slightest bit dulled from an old cleaning (not badly at all — but mentioned merely for the sake of accuracy.) Full radial lines in stars, full denticles and full proof surfaces even in the center of the reverse shield.

Attractive, light peripheral toning. We feel that authentic proof bust dimes (most offered as proofs are not!) are the rarest of all proof bust coins except dollars. Hence they are underrated and underpriced.

- A letter of authenticity from Walter Breen accompanies this rarity. Reasonably priced and an excellent investment at 2250.00

Absolutely genuine, a point not to be taken lightly, as every other high grade 1885-S dime we have ever been offered has proven to be counterfeit.

1799 Ch. AU, sharply struck and lustrous. Appears fully BU at first glance, and would fit nicely in a BU type set. If you don't want to spend \$8000 - \$12,000 for a Ch. BU, this is the coin for you! 1950.00

1803 EF-AU, lustre, a bit weakly struck at Liberty's hair and some very minor surface marks on the obverse. A scarce date that is really quite underrated. Excellent value at only 895.00

MORGAN DOLLARS

We try to grade dollars conservatively, as we do with all of our coins.

MORGAN DOLLARS

However, silver dollars, especially Morgan and Peace designs, seem to have more bagmarks than other coins. Thus, we have incorporated the mintstate grading system, using MS-60, MS-65, and MS-70 as a means of grading our dollars with even more accuracy. The definitions of the different mintstates are as follows:

MS-60 — Strictly uncirculated, full mint frost with the normal amount of bagmarks, and normal strikes for the date. (Excessively bagmarked coins or horrible strikes will be noted separately.)

MS-65 — Choice BU, well struck pieces with minimum amount of bagmarks. Generally well above average coins. Comparable to coins some sell as MS-70! Our MS-65 coin will usually please even the most discriminating collector.

MS-70 — True Gem Uncirculated, virtually perfect, fully struck coins with essentially no bagmarks. Many dates, in fact, simply do not exist in MS-70 although you see many dealers offer them as such.

You will notice that very few dates are available from us what we consider to be MS-70 grade.

NOTE: Coins listed as *Ch. AU* have full ORIGINAL MINT lustre and full hair and breast feathers. Many collectors and some dealers(!) cannot tell these from mint state!

SPECIAL OFFER!

1880-CC/79 2nd reverse, the GENUINE overdate with the full 7 showing, and the 9 showing under the 0. Most of the 1880-CC/79 dollars we have seen are not this genuine overdate variety, and show only the very bottom of the 7 and none of the 9. Also these have the reverse of 1878. By far the rarest of the overdate CC dollars. (catalog value; \$425.00 as listed on page 152 of "A GUIDE BOOK OF UNITED STATES — 1974 Edition.)

We recently acquired a full roll [20 coins] of very nice BU specimens [many dealers would call these choice or gems] with unusually sharp overdates and full strikes. We feel that these are an exceptional investment as this variety is seldom available in any reasonable quantity. They are offered for your consideration at the following very special price:

MINT STATE 1892-S DOLLAR

1892-S MS-60. In our opinion the rarest of all Morgan dollars in full mint state. The specimen offered here is one of the nicest we've seen . . . sharply struck with full hair and full (though not really razor sharp) breast feathers, fewer than average bagmarks, and full original mint lustre.

It is not a "slider" or an abrasively cleaned unc, but a true BU specimen. We've seen far worse called MS-65, choice, gem or whatever!

Also, it is absolutely genuine, a point not to be taken lightly as we've seen many counterfeits of this date in high grade.

This piece would highlight the very finest set of Morgan Dollars, and it is offered at a most reasonable price 6500.00

 Ch. AU, absolutely a full strike with razor sharp hair and breast feathers. This coin could easily be sold as Ch. BU, but at N.E.R.C.G., we do not believe in stretching the grading even when a coin is as close as this one. Ch. AU 695.00

MS-60, sharply struck with full original mint frost. The nicest 1895-O dollar we've handled in nearly 3 years. This has always been one of the toughest dates to acquire in choice condition, as nearly all of these that you see are either weakly struck or "sliders". The specimen offered, here, practically an MS-65 coin, presents an important opportunity as 1895-O dollars of this quality are seldom offered 1750.00

CHOICE PROOF 1921 MORGAN DOLLAR

1921 Proof, beautifully toned. A choice specimen/presentation striking with virtually flawless satin surfaces. (All genuine proof 1921 Morgan Dollars are satin-finish as opposed to mirror-finish proofs.)

Immediately recognizable as an authentic proof by the diagnostic faint die crack from the top left of the 2nd U in UNUM to the rim.

Approximately 25 proofs of this date are known, making it the rarest of all proof Morgan Dollars. A badly hairlined specimen sold at auction a couple years ago for \$2750.00. However, the appearance on the market of a number of non-authentic proofs offered as genuine proof specimens, has kept this issue from rising dramatically in price along with the rest of the rare coin market.

This absolutely authentic proof specimen will undoubtedly prove a tremendous investment once the numismatic fraternity recognizes the difference between the genuine presentation striking and the commonly offered first-strike proof-like uncirculated specimens.

"I was very pleased with the 1917 \$1 McKinley gold piece in Choice Brilliant Uncirculated condition I received in the mail last Friday. Irrespective of whether or not the coin will appreciate in value, the coin was conservatively and accurately graded! I definitely got what I paid for when I ordered my coin from N.E.R.C.G. More important, I would like to commend your firm on the prompt and most efficient manner in which the transaction was conducted. The most important attributes of a good coin dealership from my standpoint are accurately graded coins and personal integrity on the part of the firm. As far as I am concerned, your company has every one of these attributes! Good luck in the future!"

C.G., VIRGINIA

U.S. GOLD

Again, N.E.R.C.G. is proud to offer an outstanding selection of choice and rare U.S. Gold – certainly the most popular of all U.S. series.

As with all rare coins, we stress the importance of rarity and quality when buying rare gold. At this point in time, we are strongly advising AGAINST the purchase of bullion-related gold coins. (i.e. Mexican 50 pesos, sovereigns, U.S. common date \$10 and \$20 gold etc.) for investment.

Our reasons for this are a matter of history. Bullion-related items' value depend on the increase or decrease in the value of gold bullion. This is a very speculative, uncontrollable risk, and an unnecessary one.

Rare gold coins have always at least kept pace with the bullion market, and usually have surpassed it. Further, when gold bullion drops in value, rare coins do not. In fact they generally tend to rise in value even in fairly deflationary times. (although not as quickly)

Certainly, unless you cannot hold them for a period of 3-5 years or longer (a situation in which under present conditions, we will not recommend the purchase of ANY coins for investment except possibly bulk silver coins), rare coins have all the advantages and none of the disadvantages of bullion items.

Here is an illustration: In 1950 you could buy a common uncirculated grade \$20 gold piece for about \$50.00; or you could buy an uncirculated \$1 gold piece for \$7.00! In 1964 the \$20 was worth about \$70 and the \$1 gold about \$40.

Now, in 1974, they both sell for about \$275-300. This is still ridiculous, because \$1 gold pieces are probably about 500 times rarer than \$20 gold pieces.

Any investor could easily locate and purchase 5,000 U.S. \$20 double eagles on the open market, without raising the market price more than \$5 or \$10 per coin. However, to buy just 25 strictly uncirculated \$1 gold pieces on teletype, you would probably have to raise the bid price about \$50 per coin, if indeed you could find 25 pieces at all! So you can easily see the advantage of investing in rare, rather than common items.

We have been saying for years that if you emphasize quality and rarity when assembling a group of coins for investment, not only will you have coins which you will be proud to own, but you will have one of the best of all possible long term investments.

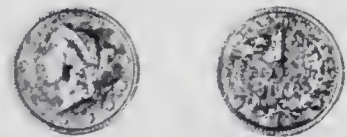

We're convinced that the future will continue to prove us correct on this point as it always has before.

Please read over this listing as carefully as possible. There are many excellent buys here!

1860 BU, some minor handling marks on reverse. Scarce and underrated date 310.00

RARE 1860-D GOLD DOLLAR

1860-D EF-AU. (fully AU on the obverse) but with some characteristic weakness of strike as seen on all genuine examples of this date.

An extremely rare issue, reportedly less than 20 known specimens in any grade. Also many of these have been polished, repaired or otherwise impaired. The Gilhousen VF (with a weak *date*) brought \$2,750.00 over a year ago. We feel this original EF-AU, probably one of the top 5 or 6 specimens known, is a bargain at our conservative price

EARLY \$2 1/2 GOLD

MINT STATE 1821 QUARTER EAGLE

1821 Brilliant Unc, with just the slightest traces of cabinet friction only noticeable under magnification. Two minor abrasions mentioned solely for the sake of accuracy. Very much in demand as the first year of this type, even though mintage figures say that 6,448 pieces were struck. Most of these, however, were melted due to their high gold content in 1834. In that year, Congress reduced the gold content in gold coinage, thus making all of the earlier gold coins worth more than face value because of their bullion content! The last meaningful auction record we can trace was the Gilhousen specimen in EF which realized only \$4,000. However, this was before the dramatic price rise in this type. They have since doubled (or more!) in price. For example, commoner dates of this type are now wholesaling (trading between dealers) at well over \$6,000 in BU — yet a prooflike gem 1829, which is a scarcer date, brought only \$3,400 in the Gilhousen sale. This offering represents a unique opportunity to the quality conscious type or date specialist. It may be 10 or more years before another 1821 mint state quarter eagle is offered for sale. We feel our price is more than justified, and in fact expect this coin to prove an outstanding investment and an excellent value. Sure to be the highlight of the collection of its next owner at 9,500.00

1848 "CAL" QUARTER EAGLE

1848 "CAL" above eagle. EF-AU somewhat prooflike. As noted in the Gilhousen sale, "In 1848, about 230 ounces of gold were sent to Secretary of War Marcy by Col. R. B. Mason, Military Governor of California. The gold was turned over to the mint where it was made into quarter eagles. The distinguishing mark 'CAL.' was punched above the eagle on the reverse side while the coins were in the die." The specimen in that sale (Gilhousen) brought \$7200- in just EF.

The Ullmer EF Specimen (Stack's May 24, 1974) realized \$8,000 after spirited bidding.

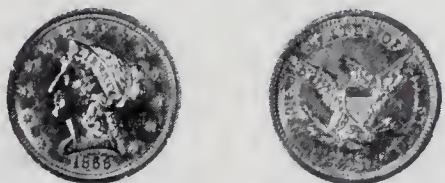

One of the great rarities of the \$2½ gold series, and one of the most famous and romantic gold coinage issues minted. An important addition to any advanced set of \$2½ Liberty gold, territorial gold or complete gold type. Our EF-AU is very conservatively priced at only 6,500.00

EXTREMELY RARE 1831 HALF EAGLE

1831 Large D, BU, a perfect, razor sharp striking with every star and all other details 100% fully struck up. Partial semi P-L surfaces.

The half eagles dated 1829 (small date) through 1834 are smaller in diameter than the earlier pieces. They also have smaller letters, dates and stars. This is a 5-year type and it is many, many times rarer than the preceding 1813-29 type. (Probably about 10-15 times rarer!)

All late date (1824-34) capped left half eagles are extremely rare, and Guide Book values are meaningless. We note, for example an AU 1827, a coin of which there are perhaps 8-12 specimens known, being advertised at \$75,000. We also note an uncirculated 1828, a coin of similar rarity at \$125,000.

There are approximately 25-30 specimens of 1831 half eagles known (Breen says low R-6) so it is not in a rarity class with the 1827 or 1828. However, it is certainly an excellent value at our conservative price19,500.00

EARLY \$10 GOLD

PROOFLIKE GEM 1797 HERALDIC EAGLE

1797 Gem BU, Proof-Like. Fully struck with full breast feathers on the eagle. BU, by far the finest specimen we have ever seen of this date, or any early \$10 gold for that matter. In great demand by date and type collectors alike, and actually quite scarcer than the later date issues such as 1799 and 1801 which have been regularly bringing

"Thank you for the 1891 dime. The grading was perfect. It is a pleasure to find a company that gives such fast and excellent service."

D.H., NORTH DAKOTA

\$8,000-\$10,000 in mint state when offered at public auction. Surely this 1797 is destined for any collection of U.S. Gold keen on quality. A truly remarkable coin, one which superlatives simply could not do justice to! Gem Brilliant Unc.....17,500.00

MINT STATE 1803 EAGLE

1803 (Breen 1-A, high R-4, late die state “horned eagle variety.”) Ch. BU, fully struck with an absolute minimum of bagmarks An absolutely outstanding early eagle. In light of recent auction records (as high as \$8000 – \$10,000 for common dates – and 1803 is not a common date, especially in mint state!) This coin is a bargain at . 7500.00

EXTREMELY RARE 1865 EAGLE

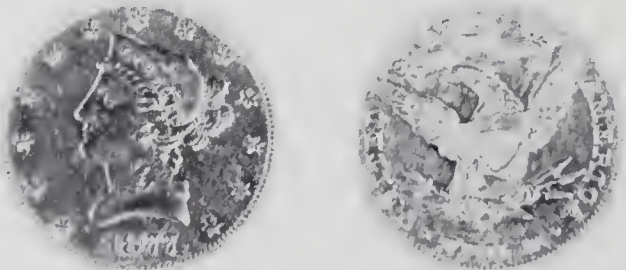

1865 Borderline Unc, actually fully mint state with some softness in striking, and with a few usual bagmarks. Full frosty mint luster. Previously unknown in uncirculated grade. 1865 is a great rarity in all grades. Breen estimates less than a dozen known, and no business strikes reported to exist better than VF! This coin recently came from Europe where it has probably been since the 1860’s. An exciting discovery. This unique coin combines rarity and condition, as it is by far the finest known business strike of an extremely rare and underrated date. It is almost absurd that with an 1804 dollar having recently sold for \$150,000, you can buy a coin that is probably equally rare for only 5950.00

SPECIAL OFFER

N.E.R.C.G. has recently acquired the remainder of the small hoard of Civil War bank scrip from the Bank of Newbury, Wells River, Vermont. This group consists of three denominations: 5¢, 10¢, and 25¢, all in fresh crisp uncirculated condition. As you can see from the accompanying photographs, the 5¢ denomination was printed singly and in pairs on 7" long paper while the 10¢ and 25¢ denominations were printed in pairs only on 8" long paper. We can offer the following theory as to how this happened. The printer naturally began with the 5¢ notes and printed them one at a time centered in the middle of the 7" long paper. After printing a few notes, he decided that he could probably fit two notes on each sheet so he began printing two notes on each 7" long sheet, one at a time, since he only had one plate to work with. This was still not satisfactory, however, because the margins thus created were too small. This was remedied on the 10¢ and 25¢ notes by increasing the length of the paper to 8".

Although we have seen these identical notes advertised nationally for up to \$3.95 per single note, we can now offer them at the following special prices:

5¢ single (narrow margin)	1.95
5¢ single (wide margin trial note) Rare	12.00
5¢ uncut pair	3.75
10¢ single	1.95
10¢ uncut pair	3.75
Set of 3 uncut pairs, 5¢, 10¢, & 25¢ (6 notes)	12.00

George Washington Pocket Watch. 18 karat gold hunting case. Fully jeweled and running accurately. Made in the early 1800's by T.F. Cooper of London. The quality of workmanship is absolutely splendid. A detailed portrait of George Washington appears on the obverse.

With the upcoming bicentennial, we feel this beautiful watch, an item with great historical significance, will prove a tremendous investment. Priced to be an excellent buy even in today's market. Your satisfaction, as always, is guaranteed1,495.00

LATE ADDITIONS

Since the main text of this catalog was written, members of our staff attended four major coin conventions in a period of nine days. Over one-half million dollars worth of new material was purchased. We did not have time to give a full listing of these, however, we have listed most of the highlights of our acquisitions here. Please read this section carefully as there are many great rarities and all are priced to be excellent values. Happy hunting.

Investment Insights

Christopher Tracey
Investment Counselor

The gains made by our investors who joined our investment program over a year ago have proven to be far in excess of estimated returns. Market conditions have never been so favorable as they are now. This trend will no doubt continue for some time to come.

I examined our files of previous catalogs and selected items from our May, 1973 edition (#8) which were equivalent in grade to items in our May, 1974 edition (#17). The selection consisted of seventy-eight coins ranging in price from \$9.00 to \$1,695.00. The initial cost in May, 1973 was \$14,788.50 and the retail price in May, 1974 was \$23,281.00, a gain of 57.4% in one

year!!! This may be difficult to believe but it is not at all unusual in such a unique field.

What will the future bring? How long can the present conditions exist? Many investors are trying to find answers to questions such as these. Our research has uncovered many factors which predict an even greater market in volume, profits, and stability in the future.

Rare coins will constantly increase in value even though some people are hesitant to believe this due to the present seemingly "high" prices. An extremely important point to consider is that most major dealers and investment

firms (ourselves included) can not purchase enough choice material for their clients. Rare coins are becoming more difficult to locate, especially at the current prices. We feel that the market has more potential now for value increase than ever before. The upcoming bicentennial celebration, the annual increase in the rate of inflation, and poor market conditions in other investment fields, are all contributing to create a stable, highly profitable numismatic market.

Our program is simple and includes a complete 100% satisfaction guarantee. We do not require regular payments as many firms do, but a program of this nature can be established if you so desire. We do require a minimum initial investment of \$500.00 but you may invest any amount over this depending on your financial situation. Our sales personnel are always available for consultations concerning purchases or liquidation of portfolios.

We offer a lifetime guarantee of authenticity on all coins and a full ten day return privilege if you are not completely satisfied with any portion of the portfolio assembled for you. You have probably heard of our reputation in the coin field from either another collector or investor and are familiar with the select type of material we handle and deliver to our valued clients for a highly profitable investment. Our business policy is unique and our knowledge of the rare coin field is difficult to surpass.

The past twelve months have seen new record prices established including the \$200,000. Saint-Gaudens ultra-high relief \$20 Gold Piece, but the future promises even greater profits for the intelligent investor and collector.

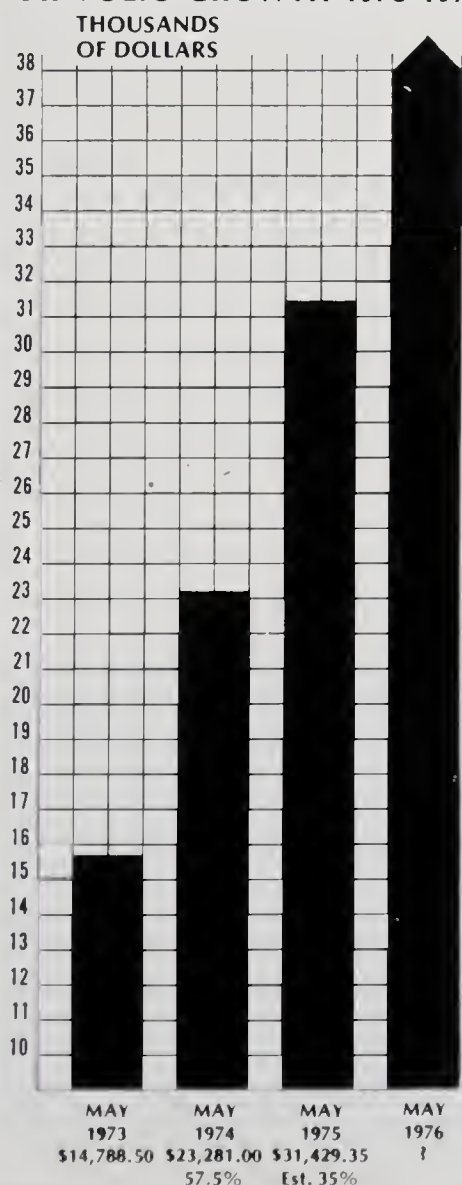

If you have a serious desire to invest in rare coins, I am sure we can be of valuable assistance to you. An order form is included in the catalog which requires a few essential questions to be answered. Please call our toll free number or if you are from Massachusetts, you may call collect, if any problems or questions should arise.

I am looking forward to speaking with all of you and serving you in whatever way I possibly can.

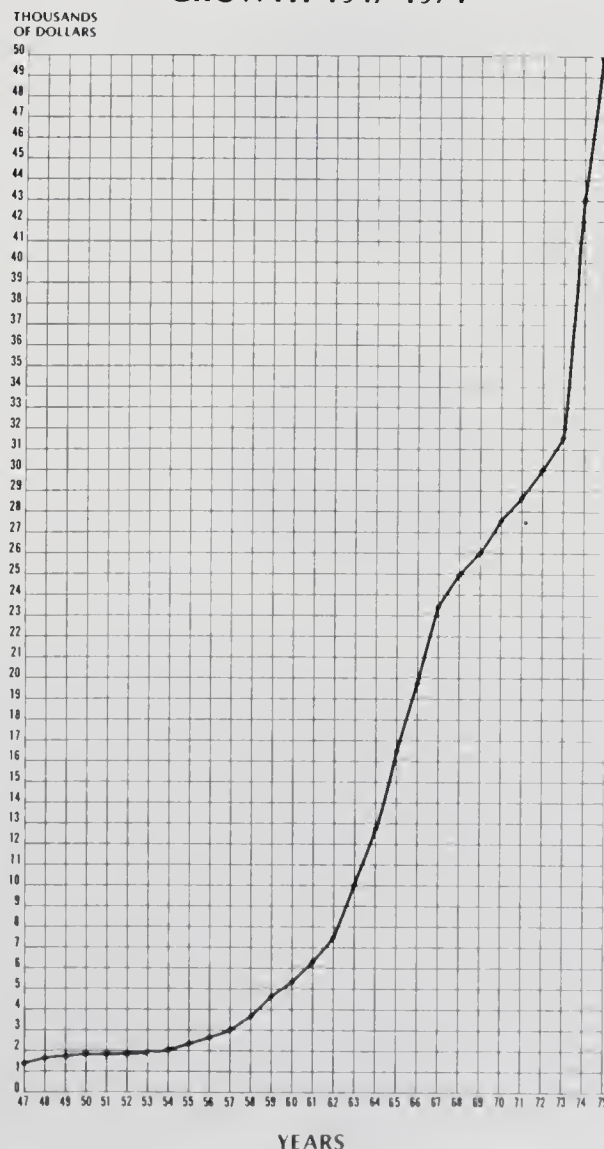

Best Regards,

Christopher Tracey

Investment Packages of Rare Coins

We are often asked for our recommendations as to which coins we feel offer the best possible investment potential. Unfortunately, it is impossible for us to give a specific answer to such a general question. So many factors concerning the individual situation of the investor, himself, must enter into the answer.

THE INDIVIDUAL INVESTOR:

The coins you should hold, depend on quite a few factors. The most important is the amount of time you can hold your investment. For example, many coins which offer excellent long-term (say 10-12 years) potential, offer no real possibilities at all to those wishing to keep their investments for only 3 or 4 years. In many cases, an investor is willing to sacrifice some of his probable percentage gain for greater liquidity. (Especially if he is not sure *WHEN* he will wish to dispose of his investments.) Some investors are interested in highly speculative items (such as bullion gold, BU rolls, etc.) that offer quick profits (or quick losses) and put them completely at the mercy of various uncontrollable market factors. Others prefer investing (usually over a long period of time) in rarer items such as choice colonials, rare gold, choice type material, and rare date silver and copper coins. As far as I know, any collector or investor that has bought such items from a repu-

table, established dealer, and held them for a minimum of 5-10 years, has always been able to sell his holdings at a substantial profit.

THE COIN MARKET IN GENERAL:

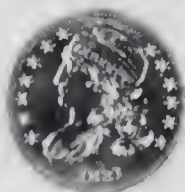

Prospects for the future of the rare coin market in general look excellent. Coins always seem to perform the best in times of inflation, and the current shortages of raw goods indicate the coming of an inflationary trend. In the past year, the stock market has not only failed to keep up with inflation, but has actually lost money for many of its investors. Conversely, gold has better than doubled in price, silver has risen dramatically in value, and rare U.S. coins in general have approximately tripled in value. We foresee the continuation of this trend for quite some time.

Also there are certain areas of numismatics (rare coins) where many items have not been keeping pace, pricewise, with the rest of the coin market and with the increase in demand, they must thus be considered underpriced.

WHAT YOU CAN DO:

We are strongly recommending the purchase of selected rare coins for investment, to be held for 3-5 years or longer. In average times, investments in properly selected U.S. coins

Continued on next page

Investment Packages (continued)

can generally be expected to double in value every 5 years. In times such as these, the increase may be far greater. We try to offer our clients the type of coins that we feel will appreciate well over the long run — coins whose value is based on true rarity and condition, rather than merely highly speculative intrinsic content.

We also recommend certain series as investments for specific periods of time. (For example: we are recommending the purchase of choice U.S. colonials to be held until 1976 — as we feel that the bicentennial will spark a great deal of interest in this particular field of numismatics. We also consider rare date gold coins to be the best general 5-7 year investment item.) However, there are always going to be specific items within these series that we feel are better buys than others.

If you would like to make an investment in rare coins, and are willing to place yourself in our hands, we will be happy to make up an investment package for you which we feel will be best suited for your needs.

We will do our absolute best to give you coins that will offer you the best possible appreciation over the period of time during which you plan

to hold the coins. In addition, we can offer you advice as to the best possible methods of selling your coins when it comes time to liquidate. We will also try to diversify your package in such a way as to give you a fairly secure position. And although we do not guarantee that you will get rich buying coins this way (though some have), we do have the experience, knowledge of rarity and condition, and awareness of market conditions, to just about guarantee that unless you are an expert on the rare coin market, you will have a much better chance of profiting from such an investment, than if you selected the coins yourself from other coin dealers (or even from us).

NEW ENGLAND RARE COIN GALLERIES:

In addition, you will be dealing with New England Rare Coin Galleries, a highly respected name in the industry. We are the largest and most active rare coin dealership in New England. We are rare coin experts and we pride ourselves on our competence as advisors of grade, authenticity, rarity and value, to collectors, investors, and other dealers. The profits we have made for our investment clients since we have been in

business have far outstripped the gains made by the coin market in general. Our name is your assurance of fair, consistent value and proper grading and attribution.

FURTHER GUARANTEE:

After you have received your package of rare coins, you will have 10 days to inspect the coins, show them to other coin dealers, collectors, etc. If you are not convinced that you have received the best possible value for your investment dollar, we URGE you to return the coins to us. (Each coin in your package will be INDIVIDUALLY invoiced, and any single coin or coins may also be returned for refund or replacement.) We're not worried about this guarantee, however, as we are firmly convinced that we offer the best possible value in numismatics today. (Apparently our customers feel the same way about us, as our sales have better than tripled in the past year and show no signs of slowing down.) Nevertheless, the guarantee is there for you, and it is sincere.

NOW

If this type of arrangement sounds like what you are looking for, fill out the order form and mail it in to us with your check. We will then assemble a group of coins which we feel are best suited to your particular investment picture. Each coin will be individually priced, and any coin(s) may be returned within 10 days for a full refund (for any reason or no reason at all).

Your satisfaction is completely guaranteed.

"Buying coins from you has really been a pleasure and I am really looking forward to the next shipment."

J.B., ILLINOIS

"I want to commend you on your excellent service and exceptionally graded coins! I plan to do a good deal of business with you in the future."

K.K., MICHIGAN

"I am writing this letter with several purposes in mind. First, I must extol you for your selection of my first rare coin investment package. At the time the prices seemed rather high to me but I now realize that the superb quality will unquestionably pay off in years to come."

D.S., NEW YORK

"Although I am a novice coin investor, I was pleased with the fair grading and varied selection of my initial investment package. I am impressed with NERCG."

C.S., NEW JERSEY

"I have done business with your firm in the past and have been quite pleased with the results."

☐ *If you have already received an investment package, and your conditions are unchanged, please check here and we will refer to original copy for necessary information.*

Please answer these questions as specifically as possible.

How long do you expect to be holding these coins? If you're not sure, please give approximate chances of each possibility — example: "I will probably hold for 10-12 years, but there is about a 20% chance I will need to sell in 4 years." (Note: *We do not recommend investing in rare coins unless there is a good chance you'll be holding them for an absolute minimum of 2% to 3 years.*)

Do you have any preferences regarding intrinsic values of coins, specific type of items that you prefer, etc.? (Note: We prefer that you leave these considerations up to us, however we will accommodate any wishes regarding specific interests you may have.)

How do you intend to dispose of these coins when it becomes time to sell? Would you like us to give you our recommendations?

Do you know if you will be investing more money in rare coins using this plan in the future? If so, approximately when and in what amounts? (This will help us plan which of the coins that fit into your picture to sell you now and which to plan on selling you later, as we feel certain coins may now be underpriced and others overpriced on a short-term basis although both may be underpriced on a longer-term basis.)

Amount to be invested \$

(Sorry, we cannot accept orders at this time in amounts of less than \$500.00).

New England Rare Coin Galleries is proud to offer to the public, a unique opportunity The actual U.S. Mint COIN DIES

used in the production of the 1968-S Proof Sets

THE DIES

New England Rare Coin Galleries is proud to offer to you our few remaining coin dies, dies actually used in the minting of coinage for proof sets in 1968.

LOOKING BACK . . .

1968, a short six years ago, was an exciting year for numismatics. After a three year dry spell, it was announced that proof sets, sets of coins made expressly for collectors, would again be minted. But this year history was to be made with the announcement that the proof sets were to be minted, *NOT* at the traditional Philadelphia mint, but at the newly revitalized mint in San Francisco; and that they would bear the "S" mintmark!

HISTORY

The first proof set ever issued from any branch mint, breaking the 110 year Philadelphia mint tradition; the first time U.S. proof sets were to bear any mintmarks . . . and the first and LAST time in post-1900 numismatics that the actual historical dies were allowed out of the mint!

COLLECTOR INTEREST . . .

These dies are fascinating pieces of numismatic history, and because they have been defaced at the mint before their release, they are completely legal to own. Although the dies have been defaced, many still retain partial effigies of familiar faces and mottos still in use on our coinage today.

Each die has been individually serial marked at the mint, in addition, each has the "P" stamped into it indicating use in making proof coinage, and the letter "S" incused into each die to indicate its use in the San Francisco mint.

NEVER AGAIN . . .

New England Rare Coin Galleries is the only firm from who you can now purchase these dies. Once our supply is exhausted, there will be no more (the government has stringent controls to see that no more coin dies leave the mint), no more will ever be released, not next year . . . not ever!

These dies are both unique and fascinating; unique as representatives of the first year of operation of the San Francisco mint since 1955; fascinating to all numismatists, or anyone for that matter! A tremendous opportunity to obtain a wonderful conversation piece as well as a welcomed addition to any educational display. The laws of rising demand and absolutely limited supply make these a wonderful potential investment item.

UNIQUE OFFERING

Our supply is limited, but while we still have a few available, we make the following offering:

PRICE: \$29.00 per coin die*
 \$225.00 per complete ten die set. Sets of ten dies include one reverse and one obverse die of each denomination minted (cent, nickel, dime, quarter and half)
*On individual coin die orders, you may specify preferred denomination (except half dollar). Even though denomination is of our choice, we will do our utmost to see you get your preference. Half Dollar coin dies are available at \$45.00 each.

At this time, we must limit orders to no more than five (5) dies or sets per customer, dealer or investor.
To make this offer even more irresistable, we shall include free of charge a 1968-S proof set with each order, two proof sets with each order for a ten die set.

This unique offer gives you a chance to participate in acquiring a true piece of numismatic history and since this may very well be our final offering of these unique dies, we urge you to send your order now while they are still available.

MONEY-BACK GUARANTEE

If, for any reason you are not satisfied, you may return the dies within 10 days for a full instant refund.
